# Passerelle Coach

Release Notes v4.1

General

Enhancements

- o Added Setting to control the visibility of the operator identity for guest users. If disabled, the guest user will see the Enterprise name instead of the operator's name.

Admin Web Application

Enhancements

- o Added Setting 'Operator identity is visible to guests' (enabled by default)

Web Application

Enhancements

- Show/Hide operator name for guest users based on the corresponding setting

Known issues

- o   Some users may experience sound or video issues on the iPhone 14 Pro (Max) when using the browser with iOS 16.0 or 16.1. Restarting the browser will resolve the issue. This issue has been resolved with iOS 16.2.
- o   Currently, screenshare does not function on OSx Ventura in Safari. There is no official resolution date available from Apple at this time.

Desktop Application

Enhancements

- o   Show/Hide operator name for guest users based on the corresponding setting

Mobile Android Application

Enhancements

- o   Show/Hide operator name for guest users based on the corresponding setting

Mobile iOS Application

Enhancements

- o   Show/Hide operator name for guest users based on the corresponding setting

Bug Fixes

o   Fixed an issue where part of a long chat message couldn't be read

Known issues

o   Screen rotation doesn't work on Iristick glasses in combination with iOS 16.

o   Invitation hyperlinks don't open in the iOS app but in the browser instead. Pending Apple support.
